

Kashif Mukhtar

Founder of ExnessScam.com | Digital Rights Advocate | Legal Strategist

Bio:

Kashif Mukhtar is a visionary digital strategist and the force behind ExnessScam.com – a platform committed to financial transparency, trader protection, and justice in the online trading world.

With a Bachelor's degree in Computer Science (BCS Hons.) and recognized credentials including Google Certifications and Harvard's prestigious CS50x certification, Kashif blends technology, legal literacy, and marketing prowess to amplify truth and defend digital rights. [More details here](#)

He began his web development journey in 2002 and has since completed over 500 client projects across the globe. Kashif is known for crafting secure, high-performance websites and launching impactful advocacy campaigns that challenge unethical corporate behavior.

His latest efforts through ExnessScam.com have gained notable attention, especially after:

- Winning a UDRP defense (Case CAC-UDRP-107488)
- Successfully defending a DMCA challenge (Case #ACC-468-41437)

Kashif is committed to championing free speech, protecting online consumers, and confronting corporate misuse of intellectual property laws. His long-standing mission is clear: to empower individuals through digital transparency, factual reporting, and legal action.
